End Application:

Lgm-118a peacekeeper missile

Special Features:

Pivot actuators have working pressure rating of 3000 psig; actuator temp range of -65f degrees to 200f degrees; cable sling assembly lift capacity of 17, 800 lbs.; actuator rotation of 180 degrees; total assembly weight - 795 lbs.

General Description:

Used to breakover rotation ring assembly and rotation ring with cut section onto pallet; consists of spreaderbar, 2 cable assemblies, 2 trunnions, hydraulic manifold, hydraulic tubes and hoses, 2 pivot actuators

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
