Cross Sectional Shape:

Arched

Inside Corner Radius:

7.500 inches

Body Thickness:

0.063 inches

Securing Device Type:

Hinge

End Application:

F-5 aircraft

Features Provided:

Observation facility

Material:

Aluminum alloy 7075

Material Specification:

Qq-a-250/12 federal specification single material response

Fsc Application Data:

Airframe structural components

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A531m0
