Hole Diameter:

Between 0.202 inches and 0.208 inches

Width:

6.540 inches

Edge Shape:

Oval, multi holes

Length:

8.510 inches

Hole Quantity Along Length:

6

Hole Quantity Along Width:

14

Securing Device Type:

Special

Mounting Opening Shape Style:

Unthreaded hole

End Application:

F-14 aircraft

Special Features:

One hole on center of cover, 0.202 in. Min, 0.208 in. Maximum dia, w/nutcap, self-sealing, self-locking

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-250/11 composition 6061 temper t62 federal specification single material response

Surface Treatment:

Anodize

Fsc Application Data:

Fuel tank, droppable, aircraft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A531m0
