**Cross Sectional Shape:**

Circular recess

**Inside Diameter:**

3.500 inches

**Flange Thickness:**

0.100 inches

**Outside Diameter:**

4.560 inches

**Edge Shape:**

Round, no holes

**First Recess Inside Height:**

0.340 inches

**Inside Corner Radius:**

0.125 inches

**Body Thickness:**

0.080 inches

**Securing Device Type:**

Slide fastener

**End Application:**

A6 aircraft

**Material:**

Aluminum alloy 2024

**Material Specification:**

Qq-a-250/4, t851 federal specification single material response

**Surface Treatment:**

Anodize

**Surface Treatment Specification:**

Mil-c-5541 military specification single treatment response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A531h0

**Mil-std (military Standard):**

Mil-c-5541 spec.
