Cross Sectional Shape:

Arched

Width:

7.500 inches

Edge Shape:

Rectangle, multi holes

Length:

5.700 inches

Body Thickness:

0.063 inches

Securing Device Type:

Special

End Application:

A-7 aircraft

Material:

Aluminum alloy 7075

Material Specification:

Qq-a-250/11, t6 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A531m0
