**Overall Length:**

4.320 inches

**Overall Width:**

1.750 inches

**Thickness:**

0.288 inches

**End Application:**

Ce and e2 aircraft

**Aircraft Location:**

Fuselage midsection door

**Special Features:**

Fiberlass frame

**Material:**

Plastic acrylic

**Material Specification:**

Mil-p-5425 federal specification single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A11700

**Mil-std (military Standard):**

Mil-p-5425 spec.
