General Description:

Oreceiver, 3.750 in. Maximum dia, 0 to 125 psig operating pressure, 180 psig proof pressure, 225 psig burst pressure, 6.5 gpm acceptance, ambient temp range minus 65 degrees min, 165 degrees max, fluid temp range minus 65 degrees min, 135 degrees max, flange dim., 0.180 in. Thk, 5.350 diameter w/1 flatted side, 14 mtg holes, 0.311 in. Min, 0.318 in. Maximum dia, 7 retaining lugs, 0.155 in. Min, 0.159 in. Maximum radius, normal mtg attitude 5 deg, for use with hydrocarbon fuels, elec res 10 ohms or less, dust cap included

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
