Cross Sectional Shape:

Flat

Hole Diameter:

Between 0.190 inches and 0.196 inches

Body Thickness:

0.063 inches

Securing Device Type:

Threaded fastener

Mounting Opening Shape Style:

Unthreaded hole

End Application:

Ah-1 helicopter

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-250/5, t3 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A531h0
