Cross Sectional Shape:

Flat

Hole Diameter:

Between 0.190 inches and 0.193 inches

Body Thickness:

0.090 inches

Securing Device Type:

Threaded fastener

Mounting Opening Shape Style:

Unthreaded hole

End Application:

F-14 aircraft

Material:

Aluminum alloy 2219

Material Specification:

Mil-a-8920 comp 2219 t81 military specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A531h0

Mil-std (military Standard):

Mil-a-8920 spec.
