Edge Shape:

Triangle, sharp corners, no holes

Length:

5.300 inches

Securing Device Type:

Flush catch

Features Provided:

Observation facility

Special Features:

Laminated and bonded to acrylic sheet by acrylic resin

Material:

Polyester

Surface Treatment Specification:

3433, fscm 88730 mfr ref single treatment response

Fsc Application Data:

Wing, lead edge, f84 acft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A531m0
