Overall Length:

2.600 inches

Overall Width:

1.860 inches

Material Thickness:

0.064 inches

Aircraft Location:

Torque tube

Aircraft Mission Design Series:

T-37

Special Features:

Matl: 1 flanged bushing centered into 0.625in diameter hole w/.810in corner radius

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-250/5 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11800
