## NSN 1560-00-766-7224

Aircraft Structural Component Bracket - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/1560-00-766-7224

Overall Length:
3.440 inches
Overall Width:
2.000 inches
Aircraft Location:
Canopy drive mechanism
Aircraft Mission Design Series:
T-33
Special Features:
Matl: extr Is3511; c/o: 2 slotted holes on both sides
Height:
1.560 inches
Material:
Aluminum alloy 2024
Material Specification:
Qq-a-250/6 federal specification single material response
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
Yes - demil/mli
Filg:
A11800
