Edge Shape:

Rectangle, no holes

Securing Device Type:

Flush catch and hinge

Special Features:

Spring loaded self-closing

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-250/5, t4 federal specification single material response

Surface Treatment:

Primer zinc chromate or anodize

Surface Treatment Specification:

Pv-f-2, fscm 77272 mfr ref single treatment response or pv-f-19, fscm 77272 mfr ref single treatment response or pv-f-25, fscm 77272 mfr ref single treatment response

Fsc Application Data:

Fuselage sect., acft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A531m0
