Overall Length:

18.290 inches

Overall Width:

2.460 inches

Material Thickness:

1.250 inches

Aircraft Location:

Fwd fuselage

Aircraft Mission Design Series:

F-16

Special Features:

Canopy actuator support

Material:

Aluminum alloy 7075

Material Specification:

Qq-a-367-t73 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11400
