Width:

2.520 inches

Edge Shape:

Rectangle, no holes

Length:

2.520 inches

Body Thickness:

0.250 inches

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-250/11, t6 federal specification single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-a-8625, type 3, class 1 military specification single treatment response

Fsc Application Data:

Aircraft model f-16

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A531h0

Mil-std (military Standard):

Mil-a-8625 spec.
