Side For Which Designed:

Right side

Aircraft Location:

Forward inboard upper wing

Aircraft Station Number:

W.S. 110.0

Aircraft Mission Design Series:

A-10a

Special Features:

U/a: fitting, wing splice; matl: form forging 160d611606f; finished wt not to exceed 11.2 pounds; anodize sulphuric acid corr preventive coat per: mil-a-8625, type ii, cl1; penetrant inspect mil-t-6866; alum ht: mil-h-6088

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11800
