Overall Length:

45.000 inches

Overall Width:

34.000 inches

Thickness:

0.125 inches

End Application:

F-16

Aircraft Location:

Trailing edge weapons pylon assembly

Special Features:

Designed for chemetch process per fps-1051

Material:

Aluminum alloy

Material Specification:

Qq-a-25/4-t62 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11700
