Overall Length:

26.000 inches

Overall Width:

13.000 inches

Thickness:

0.050 inches

End Application:

B-52

Aircraft Location:

Duct assembly, turbofan bypass

Special Features:

0 temper; finish f2.130

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-250/5-t4 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11700
