**Overall Length:**

5.000 inches

**Overall Width:**

0.600 inches

**Material Thickness:**

0.042 inches

**Aircraft Location:**

Mid fairing installation, engine nacelle strut

**Aircraft Mission Design Series:**

C-135

**Special Features:**

Commercially pure sht; finish f-10.10

**Material:**

Aluminum alloy

**Material Specification:**

Ams 4900 anld assn standard single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A11400
