**Material Thickness:**

0.050 inches

**End Application:**

C/kc-135

**Aircraft Location:**

Outboard nacelle-wing leading edge gap cover

**Special Features:**

Heat treated to condition t6; finish f 2.47; c/o 4 assorted stiffeners, 1 gap filler; opposite assembly p/n -508

**Material:**

Aluminum alloy 7075

**Material Specification:**

Qq-a-250/12-0 federal specification single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A11400
