Material Thickness:

0.050 inches

Aircraft Location:

Outboard nacelle-wing leading edge gap cover

Aircraft Mission Design Series:

C/kc-135

Special Features:

Heat treated to cond t6; finish f-2.47; c/o stiffener 3 ea, doubler 1 ea, gap cover 1 ea; opposite assembly -512

Material:

Aluminum alloy 7075

Material Specification:

Qq-a-250/12-0 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11400
