Overall Length:
4.600 inches
Overall Width:
1.100 inches
Material Thickness:
0.040 inches
Side For Which Designed:
Left side
Aircraft Location:
Splice angle, inbd & outbd strut fairings
Aircraft Mission Design Series:
B-52
Special Features:
Decarb limit per ams 6350; heat treated 180, 000 to 200, 000; opposite pn -510; annealed
Material:
Steel comp 4130
Material Specification:
An-qq-s-685 federal specification single material response
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
Yes - demil/mli
Fila

Fiig:

A11400
