End Application:

B-52

Aircraft Location:

As radius filler, fairing instl fillet, inboard strut

Special Features:

Optional 6061-t4 sht per qq-a-327 machined to match appropriate extrusion; bac1512-3368 x 0.700 in.

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-270 t4 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11400
