Overall Length:

38.600 inches

Overall Width:

35.000 inches

Thickness:

0.050 inches

End Application:

B-52

Aircraft Location:

Panel-engine wrap cowl, lower, inboard

Aircraft Station Number:

85 to 124

Material:

Magnesium alloy az31b

Material Specification:

Qq-m-44, cond h24 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11700
