Overall Length:

70.000 inches

Overall Width:

2.900 inches

Material Thickness:

0.040 inches

Aircraft Location:

Used as frame channel on panel-engine wrap cowl, lower

Aircraft Station Number:

Sta 123.7

Aircraft Mission Design Series:

B-52 aircraft

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-362 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11400
