Overall Length:

124.000 inches

Overall Width:

2.000 inches

Material Thickness:

0.050 inches

Side For Which Designed:

Both sides

Aircraft Location:

Skin splice, upprt cowl panel assembly

Aircraft Mission Design Series:

B-52

Special Features:

Heat treat to t4

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-362-0 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11400
