**Overall Length:**

22.000 inches

**Overall Width:**

7.000 inches

**Thickness:**

0.050 inches

**End Application:**

B-52

**Side For Which Designed:**

Left side

**Aircraft Location:**

Upper cowl panel assembly as skin fairing

**Special Features:**

Finish f 2.30., ht tr to t4

**Material:**

Aluminum alloy 2024

**Material Specification:**

Qq-a-362 federal specification single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A11700
