Overall Length:

89.000 inches

Overall Width:

17.500 inches

Material Thickness:

0.020 inches

Aircraft Location:

Inboard strut trailing edge

Aircraft Mission Design Series:

B-52

Special Features:

Opp 25-2779-19; used as retainer on tip assembly, fairing

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-362 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11800
