Overall Length:

5.500 inches

Overall Width:

3.700 inches

Material Thickness:

0.050 inches

Aircraft Location:

Trailing edge, fairing, inboard nacelle

Aircraft Mission Design Series:

B-52

Special Features:

Decarb per ams 6350; used as nacelle intercostal

Material:

Steel comp 4130

Material Specification:

An-qq-s-685, annealed federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11400
