Overall Length:

7.000 inches

Overall Width:

6.000 inches

Material Thickness:

0.040 inches

Side For Which Designed:

Left side

Aircraft Location:

As mid doubler stiffener, upper cowl panel assembly

Aircraft Mission Design Series:

B-52

Special Features:

Heat treated t4; finish f-2.10

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-362-0 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11400
