Overall Length:

4.000 inches

Overall Width:

3.000 inches

Material Thickness:

0.032 inches

Aircraft Location:

Center section trailing edge

Special Features:

Function-lower surface drain

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-362-0 federal specification single material response

Fsc Application Data:

Aircraft structural component

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11500
