Overall Length:

88.000 inches

Overall Width:

45.000 inches

Thickness:

0.012 inches

End Application:

B-52

Side For Which Designed:

Right side

Aircraft Location:

Trailing edge, outboard strut, panel assembly

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-362 t3 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11700
