Cross Sectional Shape:

Flat w/open center

Edge Shape:

Rectangle, multi holes

Securing Device Type:

Flush catch

End Application:

E-3a aircraft

Special Features:

2, -18, -21, &-23 replaceable assembly (interchangeable at attaching points only); part of -19 door & doubler instl-waste water drain, section 43; c/o skin door: stock size-.090x6.2x11.6in, finish srf-2.13 (1); half hinge: finish srf-12.205(faying surface only)stock made from ms20001-ph4 & ph6-1088(2); clip(1); latch-flush: finish install per srf-8.51(2); pin-hinge(1); pin-spring: finish install per f-12.44(2)

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-250/5 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A531m0
