Overall Length:

17.000 inches

Overall Width:

7.000 inches

Thickness:

0.040 inches

End Application:

C/kc-135

Aircraft Location:

Fan engine secondary air inlet door assembly

Special Features:

Srf 2.130; nha 65-13772-11

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-362-0 t4 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11700
