Overall Length:

86.700 inches

Overall Width:

12.600 inches

Material Thickness:

0.050 inches

End Application:

1520-00-859-2670

Special Features:

Bow shape; u cross section; 15 lightening holes; w/o rivet holes

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-250/5 federal specification single material response

Relationship To Similar Equipment:

Similar to nsn 1560-01-129-1773 p/n 205-030-120-15 frame, cabin roof

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A11400
