**Overall Length:**

26.500 inches

**Overall Width:**

20.500 inches

**Thickness:**

0.050 inches

**End Application:**

A-10

**Aircraft Location:**

Fairing assembly, main landing gear, shock strut

**Special Features:**

Inner skin

**Material:**

Aluminum alloy 2024

**Material Specification:**

Qq-a-250/5-0 federal specification single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A11700
