Overall Length:

52.000 inches

Overall Width:

17.300 inches

Material Thickness:

0.063 inches

End Application:

F-15

Aircraft Location:

Empennage support beam inboard shear beam

Aircraft Station Number:

Fs712.310 to fs791.650

Special Features:

Opposite p/n -2090

Material:

Titanium alloy

Material Specification:

Mms-1203 military specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11400

Mil-std (military Standard):

spec.
