Overall Length:

24.400 inches

Overall Width:

7.500 inches

Material Thickness:

0.050 inches

End Application:

F-15

Aircraft Location:

T.E. Inboard wing rib

Aircraft Station Number:

Xw146.550

Special Features:

Opposite -2037; used on -1005

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-250/5-0 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11400
