Cross Sectional Shape:

Square or rectangular recess

Width:

13.000 inches

Edge Shape:

Rectangle, multi holes

Length:

15.000 inches

Body Thickness:

0.100 inches

Securing Device Type:

Spring clip

End Application:

F-16

Special Features:

Cover, wing upper surface, external assembly, right hand

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-250/4-t81 federal specification single material response

Supplementary Features:

To. 1f-16a-4-51-265-15

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A531h0
