Overall Length:

9.715 inches

Overall Width:

4.500 inches

Material Thickness:

0.100 inches

Aircraft Location:

Air boundary, cooling for turbine

Aircraft Mission Design Series:

F-111e/fb-111a

Special Features:

Provides cooling air at the turbine inlet

Material:

Aluminum alloy 5052

Material Specification:

Qq-a-250/8 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11500
