End Application:

Air inlet/panel assembly-radial inlet split, upper

Special Features:

Heater circuit three phase, y connected, phases interwound; heater input power; 115/200v three phase, 400 hz.; heater insulation mat: cox spec. 4300 elastomer; heater element; resistance wire

General Description:

Radial inlet includes terminal area with tubing to secure wires in backshell with clamp, bolt, and nut; tube includes safety wire, strain relief clamp and connector

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
