Overall Length:

3.580 inches

Overall Width:

0.880 inches

Material Thickness:

0.040 inches

End Application:

Helicopter

Aircraft Location:

Hydraulic system-utility blade fold

Aircraft Mission Design Series:

Hh-53h

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-362 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11800
