Overall Length:

22.000 inches

Overall Width:

5.250 inches

Material Thickness:

0.025 inches

Aircraft Location:

Doubler, closure-vertical stabilizer, torque rib, lower forward box

Aircraft Mission Design Series:

F-15c cum200 & up, f-15d cum34 & up

Special Features:

Heat treated to 2024-t81

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-250/4 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11400
