Overall Length:

18.000 inches

Overall Width:

16.000 inches

Material Thickness:

0.100 inches

Aircraft Location:

Wing

Aircraft Mission Design Series:

C-17a

Special Features:

Door assembly, actuator door-lwr, ctr, fixed le; matl for skin listed in matt; matl for -4 door(impregnated glasscloth, b-stage epoxy resin per dms 2212 & cloth carbon fiber per dms 2224

Material:

Aluminum alloy 7075

Material Specification:

Qq-a-250/13 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11500
