Overall Length:

27.263 inches

Overall Width:

2.600 inches

Material Thickness:

2.600 inches

End Application:

B-2 bomber airplane

Aircraft Location:

Belly rotary launcher

Aircraft Mission Design Series:

B-2

Special Features:

Heat treat per t7351; nutplate mounted inside top center; has 67 holes

Material:

Aluminum alloy 7075

Material Specification:

Qq-a-200/11 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11400
