| Overall Length:                                                  |
|------------------------------------------------------------------|
| 62.000 inches                                                    |
| Overall Width:                                                   |
| 51.000 inches                                                    |
| Thickness:                                                       |
| 0.250 inches                                                     |
| End Application:                                                 |
| C-130, hercules aircraft                                         |
| Aircraft Location:                                               |
| Aft cargo regulated door assembly                                |
| Aircraft Mission Design Series:                                  |
| C-130                                                            |
| Material:                                                        |
| Aluminum alloy 2024                                              |
| Material Specification:                                          |
| Qq-a-362, temp-t3 federal specification single material response |
| Shelf Life:                                                      |
| N/a                                                              |
| Unit Of Measure:                                                 |
|                                                                  |
| Demilitarization:                                                |
| Yes - demil/mli                                                  |
| Fiig:                                                            |
| A11700                                                           |
|                                                                  |
|                                                                  |
