Material Thickness:

0.025 inches

End Application:

C-130 hercules airplane...

Side For Which Designed:

Left side

Aircraft Location:

Tip assembly-wing (regulated)

Aircraft Mission Design Series:

C-130

Special Features:

Material; clad, heat treat per t6

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-362 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11400
