Overall Length:

4.750 inches

Overall Width:

3.500 inches

Side For Which Designed:

Both sides

Aircraft Location:

Cockpit

Aircraft Mission Design Series:

C-130

Special Features:

Used as mounting support for the engine fuel governing panel

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-250\5 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11700
