Overall Length:

4.239 inches

Overall Width:

1.760 inches

Material Thickness:

0.190 inches

Side For Which Designed:

Both sides

Aircraft Location:

Ctr fuselage

Aircraft Mission Design Series:

F-16

Special Features:

Fuselage to wing spool retainer

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-250/11-t6 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11400
