Overall Length:

1.660 inches

Overall Width:

0.820 inches

Material Thickness:

0.080 inches

Aircraft Location:

Repair inst-inner wing rib, multi station, multi panel replacement

Aircraft Mission Design Series:

C-141

Special Features:

Requested name-clip; filler

Material:

Aluminum alloy 7075

Material Specification:

Qq-a-250/13, t6 federal specification single material response

Surface Treatment Specification:

F-46 federal specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11400
